“In 2001, we established a firm to help our clients *confidently take risks* to create and protect value”

– Tony Harb, Director

About InConsult

Established in 2001, InConsult is a leading professional services firm with extensive local and international experience in risk management, business continuity, fraud and corruption prevention, internal audit, assurance and GRC software development.

Our rapid growth and satisfied clients are testimony to our capabilities, our understanding of client needs, and our ability to deliver effective and efficient solutions every time.

We are proud to provide a comprehensive range of services to help public and private sector organisations effectively manage risks, improve resilience and strengthen internal controls to help realise opportunities, create and protect value.

Setting strategy and achieving corporate objectives is your business. Helping you better manage risks is our business. Together, we help you stay in control.

End-to-end capabilities

What is so unique about InConsult?

We understand that in order for organisations to manage risk and improve business controls, a range of activities are required. That is why InConsult offers a comprehensive range of services.

Our range of consulting services are designed to help assess the current situation, identify gaps and develop plans, policies and procedures.

How we work with you

We understand that taking calculated risks is essential for maximising opportunities and sustainable growth.

Our consulting approach is based on the premise that nobody knows your business better than you. Sometimes however, you need the assistance of an expert who has the specialist skills and the industry experience that understands your issues and most importantly, is reputed for delivering results.

That is why we strongly believe in the power of a 'true partnership' where we work with you, to harness both our collective skills to deliver better results, more cost effectively.

We work with you to gain an insight into your needs, help you establish an outlook for the future and then provide implementation support to achieve results.

Our people

From maximising business opportunities to reducing threats, we draw our capabilities from our team of experienced and trusted consultants.

The quality of advice, the value of ideas and the soundness of strategy depends entirely on the quality of our people.

We use methodologies that combine international and Australian better practice standards and our 'real life' experience.

Our consultants are a diverse team of highly qualified and experienced professionals with significant knowledge and multi-disciplinary expert skills across risk management, governance, cyber security, audit, fraud control, climate risk and business continuity.

Why choose InConsult?

We go the extra mile; we strive for excellence by providing our clients with superior and unsurpassed service.

We create value by utilising an efficient business model and by working in partnership with our clients.

We facilitate teamwork, communicate progress regularly and transfer skills to sustain improvements and benefits.

We establish sound, long-term relationships built on trust, honesty and integrity.

We are respected by key industry stakeholders and maintain good relationships with them.

We have the expertise and a proven track record, achieving results for a range of clients over a number of assignments.

We adopt a fair and honest business approach by maintaining open communication, a sensible fee structure and respect for confidential information.
